15 January 2018.

Dear

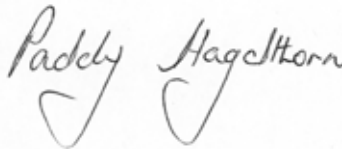

As an old friend and a welcome guest at Savanna Lodge, I would like you to be amongst the first to have the opportunity to buy, at a special pre-publication price, the new book 'Just a Blade of Grass' written by myself and Molly Buchanan. The sub-title of the book is: 'The African Bushveld – a dynamic system in need'. It was the need for help required by our Bushveld that persuaded me to publish this book. We have poaching that has got out of control, difficult weather conditions, a government that neither cares nor concerns itself with wildlife, and a natural system that, because of man's intervention, is no longer in balance and requires us to find the right solutions to the problems that have arisen.

All prepublication funds will be held in trust, pending the actual printing of the book. As you will see from the attachment, the book will soon be ready for printing. Molly Buchanan has been working with me on the writing, picture selection and design. There are more than 200 photographs in the book, the majority of which I have taken in the five years since my first book was published.

A preview of the book is attached which gives readers a good idea of its contents. The pre-publication offer and descriptions of the three editions, Sponsors' Edition, Collectors' Edition and Special Edition are on the following pages. This offer is open until 15 February 2018, enabling us to include the names of our supporters before we go to press.

Your interest will bring this book to life and, I hope, will alter many of the misconceptions held about the wildlife of Africa. Yes! I believe it is important to change. If we don't, we are likely in our lifetime to see not only a diminished rhino population but also a loss of much of the wonderful diversity of life in the African Bushveld.

With kind regards,

A handwritten signature in black ink that reads "Paddy Hagelthorn". The signature is written in a cursive style with a large initial 'P' and 'H'.
